

FAROUK AHMED

Nairobi, Kenya | thiagoacookie@gmail.com | <https://faroukahmed.netlify.app/>

PROFILE

As a dedicated front-end developer and software tester from Nairobi, Kenya, I have built my expertise through continuous learning and practical experience. My passion for web development and quality assurance has driven me to work on various projects, ensuring both functionality and seamless user experiences. I thrive in collaborative environments, always aiming to enhance teamwork and project outcomes. Fluent in English and Kiswahili, I am eager to apply and expand my skills in front-end development and software testing.

EXPERIENCE

Software Tester - BugFinders

February 2025 - Present

- Executed crowd testing projects, identifying usability issues and functional defects.
- Performed exploratory testing on various applications across different industries.
- Delivered detailed bug reports with screenshots, videos, and clear replication steps.

Software Tester - uTest

December 2024 - Present

- Conducted usability, exploratory, and functional testing for multiple software products.
- Collaborated with teams globally to assess software quality and provide feedback.

Web developer - Dawah Academy (Minnesota, United States).

November 2023 - October 2024

As a front-end developer, I collaborated with stakeholders, created responsive designs aligned with school branding, enhanced user experience, integrated multimedia, ensured compatibility, conducted usability testing, and deployed the website for optimal performance.

- Tested the website for cross-browser compatibility and responsive design.
- Conducted UI testing to ensure a seamless user experience.

Live preview - [Dawah Academy](#)

(Skills used: HTML, CSS, JavaScript, Bootstrap, Sass, Next.js).

Freelance web developer.

January 2023 - November 2023

I worked on exciting freelance projects with clients globally which is helping me solidify my skills and making me gain valuable experience.

(Skills used HTML, CSS, Javascript, Bootstrap, Sass, React, Redux, and Next).

Web Developer - Apple Express (Nairobi, Kenya).

March 2022 - December 2022

Implemented the layout and functionality of an e-commerce web app. The web app was integrated with Next.js. The customer requested the web application to resemble Apple's design, and we achieved this to the best of our capabilities using Next.js, HTML, Bootstrap, and Sass.

- Conducted UI and usability testing, ensuring smooth navigation and transaction processes.
- Performed cross-browser testing to guarantee a consistent user experience across devices.

Web Developer and Digital Marketing - Black Dot Digital (Nairobi, Kenya).

January 2022 - February 2022

Implemented the layout and functionality of an e-commerce web app. The web app was integrated with Google Analytics and Facebook Pixel which were useful in selling electronics countrywide (Kenya) using HTML, Javascript, Bootstrap, and Sass.

- Tested website performance and tracked user interactions using analytics tools.

- Conducted usability testing to ensure a seamless shopping experience.
(Skills used: HTML, JavaScript, Bootstrap, Sass).
